## WHAT YOU CAN DO TO STAY SAFE

Let someone responsible know where you are going and when you'll be back.

Take your mobile or make sure one of your friends has one. Add the useful numbers in your phone memory; **Ring 000 IN AN EMERGENCY (fire-police-ambulance).**

NEVER accept opened drinks from strangers or people you have just met and don't leave your drink alone; it only takes a second for your drink to get spiked.

Don't go out alone or leave your friends alone in the street, club or pub, especially not if they're intoxicated

If you feel someone is following you: go up to people and point them out. NEVER follow a stranger anywhere

Don't feel pressured to drink or do drugs & don't get in a car if the driver is intoxicated or doesn't have a license.

**TRUST YOUR INSTINCTS:** If you sense something is wrong, get away from the situation. Keep away from bad influences/troublemakers.
